

**REQUEST FOR PROPOSAL PS- #1072
HOME DETENTION MONITORING EQUIPMENT AND SERVICE**

QUESTIONS AND ANSWERS

JUNE 10, 2010

Q1. Page 13, Requirements for GPS Tracking section, numbers 4, 5, and 8: Although they appear under the GPS Tracking section of the RFP, the following three requirements could possibly pertain to a voice identification system. Would the County clarify the following:

- a. Number 4: Would the County please provide more information about the outbound calling schedules they want to manage using the software interface?
- b. Number 5: Please clarify the system device that is required to have the ability to set the range between retry calls.
- c. Number 8: This requirements is asking for report of voice verifications. Please clarify what type of voice verification is required in the GPS system.
- d. General Question: The GPS requirements are for a two-piece unit, but does not specify active or passive GPS. Should the vendor supply pricing for both active and passive two-piece GPS products.

A. The County is seeking a one (1) piece unit, with active verification and internet compatibility. Voice messaging is required. Beyond these requirements, vendors should propose options that they believe will fit the County's needs.

Q2. Who is the incumbent vendor?

B. BI Inc. (vendor # 1000003415)

Q3. What is the current daily rental price for the RF monitoring unit?

A. \$1.50 per day, plus monitoring charge of \$1.25 per active day

Q4. Remote Alcohol Testing Requirements states: "the unit must ensure that only the enrolled client blows the breath test by performing voice verification in addition to the delivery of the breath sample". Will the County accept alternative

to this means of verifying the enrolled client's identity, for example by comparing a digital photograph taken when the test is administered to a reference photo taken when they are enrolled?

A. Voice verification only
